Comparison of the Previous and Present Training

Previous

Present

	Previous	Present
Training	Exam oriented, duration of practice had to be completed, quality of special training was not controlled	Training oriented, skills are in center, must complete and perform definite tasks during the phases of training
Quality assurance	n/a	Quality controlled, accredited
Course of Curriculum	n/a	Unified and complies with standard international practice
Aspect of health politics	Indifferent	Medical Center plays a special role in the region
Aspect of universities	Conflict of interest	Strengthens the position of the university
International aspect	Does not comply with international practice	Complies with standard international practice
Hospitals	Indifferent, mostly remote training	Accreditation became more important

Scholarships

- ◆ **General scholarship**
- ◆ **Some special scholarships for those who start their specialization**
- ◆ **For those who start their training in certain fields with a shortage of specialists extra scholarships are available**

„Shortage” Professions I.

National level (without Budapest)

Vascular surgery

Child and youth psychiatry

Ear, nose and throat medicine

Forensic medicine

Nephrology

Medical microbiology

Orthopedics and traumatology

Oxyology and emergency medicine

Pathology

Psychiatry

Radiology

Surgery
